

ABOUT US

River Caravans is a proud Australian family owned caravan manufacturing business with over 30 years of industry experience, a boutique caravan manufacturer based in Somerton/Campbellfield Victoria. Utilising the skills pasted down from Father to Son, honed over the past 48 years in the caravan industry, River Caravans was formed, by Salv and his wife Rita.

Salv's father started G & S Chassis in 1975, Salv started his apprenticeship there around 35 years ago, learnt the art of welding, chassis manufacturing, co-designing chassis & suspensions, leading the market in the caravan industry ever since. In early 2010 Salv and Rita started River Caravans with a solid focus on producing quality caravans. River Caravans produces 150 vans a year (3 per week at present) to ensure quality control and the best possible product, which many mass production facilities simply cannot match or offer.

Both Salv & Rita work in the business full time overseeing the total operation to consistently achieve a high-quality product. River Caravans has developed a great team to assist them with the day to day running of the factories. Being a true family business, no one gets a free ride, Salv and Rita's son Carlo and daughter Raf have joined the business, following on the family tradition,

Salv is passing on his knowledge and training Carlo in the art of caravan building, Rita is managing all things office and after sales service while having input into the design and future development of the vans.

G&S Chassis was sold and is no longer owned by the family, making it the perfect opportunity to start a new chapter in River Caravans manufacturing history. 2019 marks the release of, Chassis by C&R Chassis, River Caravans first chassis, owned designed & manufactured by Salv & his father drawing on their combined 75 years of chassis and caravan building experience to ensure a high-quality build long into the future.

As a proud Australian company, we pride ourselves on using as many locally produced materials & products as possible to ensure the highest quality Caravans on the market.

River Caravans are 'hand built' Caravans which allows us to make some small customer required changes to layouts and specifications to better suit the customers' individual needs.

River Caravans manufactures 3 models of caravans plus a family range.

An all-round Touring Caravan Perfect for Caravan Parks, National Parks and Corrugation.
